

Dear applicants,

many thanks for your interest in our Master program. In order to successfully study at our faculty, we have to ensure that you bring all necessary skills with you. An important part of the study will be to address and understand the relationship between the spheres of religion, society and its moral concepts, and politics and to develop interdisciplinary approaches to solutions

This is why we ask you to answer following essay question:

**Discuss the following position and express your own opinion: "The state should be neutral towards all religions and worldviews." (Maximum of two pages, without bibliography).**

It is mandatory to add the essay in pdf-format to your uni-assist application. The essay has to be written in English. You are welcome to refer to literature, but please make sure to cite it in a bibliography.

We wish you best luck with the essay and your application!
